

### **Assignment 3 Submission Format For Each Question**

#### **Question 1**

Include the trace screenshot and highlight the protocols. Then include the protocol list in the report.

#### **Question 2**

Include the trace screenshot and highlight the important fields. Then include the information of the fields in the report.

#### **Question 3**

For each activity, include the corresponding trace screenshot. Then include explanation in the report.

#### **Question 4**

Make a table with one column as protocol name and another column as use of the protocol for functioning of the application.

#### **Question 5**

For each packet, include the information like RTT, packet length, packet loss (if there is) in the tabular form. For throughput calculation, include the screenshot of statistics page and include the calculation in the report.

#### **Question 6**

Include the trace screenshot and highlight the multiple servers (if there are). Then include explanation in the report.

#### **Note :**

For all the questions, the saved traces file should be included in the .zip file.
